Net cash provided by operating activities	<u>\$1,328,067</u>	344,146

Non-cash investing, capital, and financing activities

During the year ended June 30, 2000, assets of \$6,675 were contributed to the District by developers.

Notes to Financial Statements

Year ended June 30, 2000

(1) Summary of Significant Accounting Policies

The Costa Mesa Sanitary District ("District") was incorporated in February, 1944 pursuant to Division VI, Part 1 of the Health and Safety Code of the State of California (sometimes referred to as the Sanitary District Act of 1923). At the present time, the boundaries of the District extend into the Cities of Costa Mesa and Newport Beach as well as unincorporated areas within the County of Orange.

On December 19, 1955, the District entered into an agreement with the City of Costa Mesa, pursuant to the authority contained in the Joint Exercise of Powers Act (Sections 6500-6513 of the Government Code). Currently, the City has been contracted by the District to provide maintenance services related to the sewer system.

The following is a summary of the District's significant accounting policies:

(a) <u>Basis of Accounting</u>

The District uses the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recorded when the liability is incurred for receipt of the related goods and services.

(b) <u>Investments</u>

Investments are reported in the accompanying balance sheet at fair value. Changes in fair value that occur during a fiscal year are recognized as *investment income* reported for that fiscal year. *Investment income* includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

(c) <u>Cash Equivalents</u>

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates, and have an original maturity date of three months or less. Investments in federal agency securities are not considered to be cash equivalents as defined above and, therefore, are excluded from the statements of cash flows.

(d) <u>Fixed Assets</u>

Fixed assets purchased by the District are capitalized at historical cost. Data reflected in the District fixed asset records include estimates of original cost as determined by knowledgeable District personnel. Contributed fixed assets,

consisting primarily of donated subsurface lines dedicated to the District by sub-

COSTA MESA SANITARY DISTRICT

(1) Summary of Significant Accounting Policies, (Continued)

dividers, are recorded as increases in the contributed capital of the District. Such contributed fixed assets are recorded at their fair market value at the time of donation. Depreciation is charged to operations using the straight-line method based on the estimated useful life of the asset. The estimated useful lives are as follows:

Buildings20 yearsImprovements20 yearsEquipment20 yearsSubsurface sewer lines60 years

(2) Cash and Investments

Cash and investments held by the Sanitary District at June 30, 2000 consisted of the following:

Deposits	\$ (6,284)
Investments	<u>9,855,684</u>

Total cash and investments \$9,849,400

The Costa Mesa Sanitary District is generally authorized under the state statute and local resolutions to invest in U.S. Treasury bills, U.S. Treasury notes, Federal agency securities, banker's acceptances, certificates of deposit, negotiable certificates of deposit, commercial paper, medium term notes, repurchase agreements, Local Agency Investment Fund of the State of California, Orange County Treasurer's Pool, asset-backed and mortgage-backed securities, money market mutual funds, and passbook savings account demand deposits.

The District has also established guidelines for security purchases with investment limitations as follows: Bankers acceptances may not exceed 40% of the District's surplus money. Negotiable certificates of deposits may not exceed 30% of the District's surplus money. Commercial paper may not exceed 180 days maturity nor exceed 30% of the District's surplus funds. Medium term corporate notes may not exceed 30% of the District's surplus funds. The District may not invest more than 10% of its surplus funds in reverse repurchase agreements, and must always match its maturities to the reinvestment. The District may not invest more than 35% of its surplus money with the Orange County Treasurer's Pool. Asset-backed and mortgage-backed securities may not exceed 20% of the District's surplus money.

Notes to Financial Statements

(Continued)

(2) Cash and Investments, (Continued)

Under the California Government Code, a financial institution is required to secure deposits made by state or local governmental units by pledging securities held in the form of an undivided collateral pool. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Deposits of cities and other state or local governments are classified in three categories to give an indication of the level of custodial risk assumed by the entity at year end. Category 1 includes deposits that are insured or collateralized with securities held by the District or its agent in the District's name. Category 2 includes deposits collateralized with securities held by the pledging financial institution's trust department or agent in the District's name. Category 2 also includes deposits collateralized by an interest in an undivided collateral pool held by an authorized agent of depository and subject to certain regulatory requirements under State law. Category 3 includes deposits collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District's name. Category 3 also includes any uncollateralized deposits.

	(Category			Carrying
Form of Deposit	1		3	<u>Balance</u>	Amount
Demand deposits	<u>\$11,953</u>		<u>-</u>	<u>11,953</u>	(<u>6,284</u>)

Investments of cities and other state or local governments are classified in three categories to give an indication of the level of custodial risk assumed by the entity at year-end. Category 1 includes investments that are insured, registered or are held by the District or its agent (other than the institution through which the District purchased the securities) in the District's name. Investments held "in the District's name" include securities held in a separate custodial or fiduciary account and identified as owned by the District in the custodian's internal accounting records. Category 2 includes uninsured and unregistered securities which are held in the District's name by the counterparty's trust department or agent. Category 3 includes uninsured and unregistered securities which are held by the counterparty, or the counterparty's trust department or agent, but not in the District's name. The counterparty is the party that acts as the broker-dealer agent of the District (the party that purchased the securities on behalf of the District). Category 3 includes all securities held by the broker-dealer of the District, regardless of whether or not the securities are being held in the District's name:

Notes to Financial Statements

(2) Cash and Investments, (Continued)

	Ca	tegory 2	3	Carrying Amount
Investments held by the District: Commercial paper Medium term corporate notes Federal Agency Securities	\$ 970,178 2,782,789 \$3,978,872	- - -	- - -	970,178 2,782,789 3,978,872
Investments held by District not subject to categorization: Investment in State Investment	Pool - LAIF			2,123,845
Total investments				\$9,855,684

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, and corporations.

(3) Restatement of Beginning Retained Earnings

The accompanying financial statements reflect adjustments which resulted in a restatement of beginning retained earnings. The following schedule summarizes the effects of the prior period adjustments on the beginning retained earnings as of June 30, 1999:

Retained earnings at beginning of year, as previously reported	\$14,368,434
Adjustment of retained earnings:	
Disposition of fixed assets not recorded in prior years	(19,253)

Retained earnings at beginning of year, as restated

\$14,349,181
